

What is Lotsa Helping Hands? Lotsa Helping Hands powers online caring Communities that help restore health and balance to caregivers' lives. More than 65 million people serve as caregivers for loved ones with chronic disease or disability. The service brings together caregivers and volunteers through online Communities that organize daily life during times of medical crisis or caregiver exhaustion in neighborhoods and communities worldwide. Caregivers benefit from the gifts of much needed help, emotional support, and peace of mind, while volunteers find meaning in giving back to those in need.

What is LotsaHelp@Work? Our LotsaHelp@Work Program allows you to provide a branded version of the Lotsa Helping Hands service to your employees as a resource to make their lives easier, reduce their stress, and increase overall productivity – while reinforcing your commitment to their work / life balance. Through a link on your intranet, you can offer the service to your employees, allowing them to create their own, private caregiving Communities.

The Result? Employees are more focused at work, you have a new opportunity for employee attraction and retention, and you add to your company's employee value proposition.

Caregiver Support

See how caregivers benefit from reduced stress

- Decreased anxiety from simple, quick coordination of needs with available resources
- Reduced stress in communicating with those who want to provide support
- Faster recovery of loved ones resulting from psycho / emotional community support

Return on Investment

Achieve bottom line growth through increased employee productivity

- Low-cost introductory annual license fee provides immediate way to bring tangible support to employee caregivers
- Increased productivity from offering a caregiving coordination tool that can reduce employee absenteeism as well as frequency of arriving to work late and leaving early
- Reduced health care costs as employee caregivers lower their own health risks associated with the stresses of caregiving

Additional Marketing Exposure

Extend your company's brand

- Spread brand recognition beyond your employee base – every time an employee creates a private community website, your company's name and logo will be viewed many times – by an average of 30 or more members
- Derive goodwill as your company is associated with caring about employees

Employee Morale

Watch your corporate culture improve as employees begin to actively help one another

- Strengthened workplace culture from employees helping one another
- Gratitude that their employer cares enough to find resources which help make a positive impact on their lives
- Increased sense of pride in their company when volunteerism is promoted and supported

What can I do to help?

Lotsa Helping Hands is a private, web-based caregiving coordination service that allows family, friends, neighbors, and colleagues to create a community to assist a family caregiver with the daily tasks that become a challenge during times of medical crisis, caregiver exhaustion, or when caring for an elderly parent.

Each community includes an intuitive interface for managing tasks such as meals delivery and rides, vital medical, financial, and legal information, and customizable sections for blogs, journals, and messages.

Now, when someone asks "what can I do to help?" - you can simply click on the "What can I do to help?" button to sign up and start helping.

What Users Are Saying

"The service that you provide is incredible for those in crisis and I will surely recommend it to anyone I know that may need it. We've gotten through my husband's stem cell transplant (relapse of leukemia) triumphantly especially because we've been helped by so many people around us."

-Michelle, New Brunswick, NJ
